

THE REGIONAL MUNICIPALITY OF DURHAM

# NEWS RELEASE

21 MAY 2009

## **Additional energy-from-waste site-specific studies presented during recent public information centre**

**WHITBY, ON** – The Regional Municipality of Durham would like to thank the approximately 150 residents who attended Tuesday’s public information centre, in the Municipality of Clarington, to learn more about the proposed energy-from-waste (EFW) facility.

Residents were invited to drop in to the Garnet B. Rickard Recreation Complex in Bowmanville from 4 to 6 p.m. to speak with Regional staff and consultants about project milestones, site-specific studies to date, and current waste management programs.

This segment was followed by a formal presentation and moderated question-and-answer period that began at 7 p.m. The studies presented included the Air Quality Assessment and the Site-specific Human Health and Ecological Risk Assessment.

Since 2005, Durham and York Regions have been working together to examine ways to manage residual waste—the waste that remains after composting and recycling. For more information on the Durham/York Residual Waste Study, or to review project milestones to date, visit [www.durhamyorkwaste.ca](http://www.durhamyorkwaste.ca), call 905-307-8628 (or toll-free at 1-866-398-4423), or email [info@durhamyorkwaste.ca](mailto:info@durhamyorkwaste.ca).
