 North York, ON M2M 4J1

Dear Ms. Garcia-Wright and Ms. Goyette:

**Re: Durham/York Energy from Waste Project
 UPDATED Submission of the Regional Municipality of York 2011 Waste Diversion
 Program Monitoring Plan (Environmental Assessment Condition 10)
 MOE File No.: EA-08-02**

On November 1, 2012 York Region submitted the 2011 Waste Diversion Report in accordance with the requirements of Environmental Assessment Condition 10.

Please note that a modification to the Annual Waste Diversion chart on page 15 was required to correct the Region's 2009 diversion rate from 47% to 57%. The revised figure below reflects this correction and all figures in the report have been updated with colours specific to each waste stream as illustrated below.

In addition, on page 19 we have added historical residential tonnes collected from 2005 to 2011 for yard waste as well as Municipal Hazardous or Special Wastes (MHSW) and Electronics. On page 31 of the report, the 2004 date for incorporating Municipal Hazardous or Special Wastes collection at Regional Community Environmental Centres should read 2014.

Please find attached a revised version of the York Region 2011 Waste Diversion Report. A revised copy will be placed on our website for public access.

We trust that this plan meets expectation as outlined in the Minister's Notice of Approval. If you require additional information, please contact the undersigned.

Sincerely,

Laura McDowell, P.Eng.
Director, Environmental Promotion and Protection

LF/sc

Attachment – York Region Waste Diversion Report 2011 (revised)
