**C. R. Curtis, P.Eng., MBA**  
Commissioner of Works

As part of the Abatement Plan requested in the document dated May 31, 2016, from the Ministry of the Environment and Climate Change (MOECC) to the Municipalities of Durham and York (Owners), please find enclosed the Phase One completion report for MOECC's review. The scope of this Phase One report is based on the Abatement Plan, as submitted to the MOECC on June 10, 2016.

The Owners received the MOECC's approval for the Abatement Plan dated June 13, 2016 and have finalized the technical report based on the scope contained therein.

The enclosed technical report from the Owners' consultant, details the actions that have been implemented and verified as complete and appropriate. The Owners are forwarding the technical report to the MOECC for review and determination of the status for the restart of Boiler #1. Once approved, Covanta will restart Boiler #1 and begin the Phase Two portion of the Abatement Plan.

The Owners and Covanta are available to discuss the enclosed technical report and the restart of Boiler #1 at your convenience.

Sincerely,

Mirka Januszkiewicz, P.Eng., MASc., MBA  
Director, Waste Management Services
