Attention: Mr. Christian Shelepuk, Supervisor, Waste Management Services (Compliance)

The Regional Municipality of Durham
1835 Energy Drive
Clarington, ON L1E 2R2

Dear Mr. Shelepuk,

**Reference: 2017 Annual Ambient Air Quality Monitoring Report for the Durham York Energy Centre
- Crago Road Station**

Please find attached with this letter the *2017 Annual Ambient Air Quality Monitoring Report for the Durham York Energy Centre (Crago Road Station)*.

An explicit comparison to the Canadian Ambient Air Quality Standard (CAAQS) for PM_{2.5} requires averaging the 98th percentile daily average levels in each of three consecutive years and the annual average PM_{2.5} concentrations also requires three calendar years of monitoring data. With the completion of monitoring in 2017, three calendar years of monitoring data are now available at the Crago Road Station (for 2015 to 2017), and are presented in Section 4.2.4 of the 2017 annual report. For this time period, the Crago Road Station measured levels below the 24-hour PM_{2.5} CAAQS of 28 µg/m³ and the annual PM_{2.5} CAAQS of 10 µg/m³.

Regards,
