Dear Ms. Januszkiewicz and Ms. McDowell:

Thank you for your letter dated July 18, 2014 advising the Ministry of the Environment and Climate Change of the proposed change to how residual ash residue from the Durham and York Energy from Waste Facility will be disposed.

The Ministry of the Environment and Climate Change is satisfied, that on the condition that the testing of the residual ash generated by the Durham and York Energy from Waste Facility determines that the "bottom ash" and "fly ash" are non-hazardous, the proposed change to how the residual ash will be disposed of is acceptable; and, that the proposed change to how residual ash will be disposed of is in accordance with the commitments set forth in the Durham and York Residual Waste Study Amended Environmental Assessment.

Should you have any questions please contact Mr. Gavin Battarino, Special Project Officer of this Branch, at telephone 416-212-4279 or by e-mail at gavin.battarino@ontario.ca.

Yours sincerely,
