January 8, 2015

Dolly Goyette, Director, Central Region
Ministry of the Environment and Climate Change
Place Nouveau
5775 Yonge Street, Floor 8
North York, ON M2M 4J1

Dear Ms. Goyette:

**RE: Durham/York Energy from Waste Project
Odour Management and Mitigation Plan Appendix A
Environmental Assessment Condition of Approval Number 18
MOECC File #: EA-08-02**

In your letter dated August 21, 2012, you stated that the Ministry of the Environment and Climate Change (MOECC) was satisfied with the Durham York Energy Centre (DYEC) Odour Management and Mitigation Plan (OMMP) subject to the understanding that the standard operating procedures (SOPs) and maintenance schedules would be developed following completion of detailed facility design.

Detailed facility design is now complete. SOP D ENV 003 DYEC - Fugitive Dust and Odour Control is now referenced in Appendix A of the attached updated OMMP. No other changes were made. The maintenance schedule for the equipment listed in the OMMP is included as part of the Operations and Maintenance Manuals required by Condition 5. (1) (h) (i) of the Environmental Compliance Approval, and will be implemented following first receipt of waste.

If you require additional information, please contact Gioseph Anello, Manager, Waste Services and Technical Planning, at (905) 668-4113 ext. 3445.

Sincerely,

Mirka Januszkiewicz, P.Eng.
