

## Durham York Energy Centre Throughput Increase (From 140,000 to 160,000 tonnes per year)

# Notice of Completion

Works Department

December 20, 2021 (revised)

Public Notice

The Regional Municipality of Durham and The Regional Municipality of York have completed an Environmental Screening Process in accordance with the Waste Management Projects Regulation (Ontario Regulation 101/07) of the Environmental Assessment Act to amend the Environmental Compliance Approval for the Durham York Energy Centre (DYEC), located at 1835 Energy Drive, Courtice, Ontario. The Regions will submit an Environmental Screening Report to the Ministry of Environment, Conservation and Parks on December 20, 2021 for review and approval.

The Environmental Screening Report has been prepared to increase the annual processing capacity at the DYEC from 140,000 tonnes per year to 160,000 tonnes per year. This additional capacity is needed to accommodate population growth within the two Regions, allow the DYEC to operate more efficiently and produce more energy. This increase in capacity will not require any modifications to existing infrastructure.

The Screening process involved identifying and applying criteria for potential environmental effects, public/external agency and Indigenous consultation and the development of measures to mitigate any identified environmental effects. The proposed capacity increase is not expected to have any significant net effects on the environment. The results of the study were documented in an Environmental Screening Report, available for a 60-calendar day review period from December 20, 2021 to February 18, 2022. The report is available for public review at [durhamyorkwaste.ca](http://durhamyorkwaste.ca) If you are unable to access the digital copy of the report posted on this website or require an alternative format, please contact 1-800-667-5671.

If you have concerns or comments regarding this project, please contact The Regional Municipality of Durham (contact details below) to discuss. If concerns regarding this project cannot be resolved in discussion with The Regional Municipality of Durham or The Regional Municipality of York, a person or party may request that the Ministry of the Environment, Conservation and Parks make an order for the project to comply with Part II of the Environmental Assessment Act (referred to as a “elevation request”), which would elevate the project to an Individual Environmental Assessment. Requests for an “elevation request” must be submitted in writing to the Director, Environmental Assessment Branch and to the “Proponent” at the address listed below no later than 60-calendar days from the date of this Notice (December 20, 2021). Elevation request must be made in accordance with the provisions set out in Section B.3. of the “Guide to environmental assessment requirements for waste management projects”. The requester must include the following information in a written “elevation request”:

- the name of the project and proponent;
- the basis of the request;
- that the project be elevated to an individual environmental assessment;
- the nature of the specific environmental concerns that remain unresolved;
- the benefits of requiring the proponent to undertake an individual environmental assessment;
- information about any efforts to discuss/resolve these concerns/environmental effects with the proponent;
- details of any correspondence between the person and the proponent; and
- any other matters considered relevant by the requesting person.

Please submit the elevation request to each of the following two contacts. If submitting a hard copy request, please advise by phone or email as well due to COVID-19 circumstances.

If no elevation requests are received by 4:30 p.m. on February 18, 2022, The Regional Municipality of Durham and The Regional Municipality of York intend to proceed with the process as scheduled.
